## ArcelorMittal offers interactive virtual tour to rail production facilities at Innotrans

Berlin, 20 September 2016 - ArcelorMittal will give visitors to InnoTrans 2016 a 360 degree virtual guided tour of the rail manufacturing process.

This Interactive and three-dimensional tour features a realistic digital walkthrough of ArcelorMittal's rail facilities. Complete with 360 degree panoramic views, a short history of steelmaking and an overview of the steelmaking process itself, 'visitors' to this digital tour will begin to see why steel is the fabric of life.

InnoTrans delegates will be able to explore the rail mills in Spain, Poland and Luxembourg which manufacture rails and track fittings for underground and intercity railway lines in some of the world's greatest cities. Other facilities, such as the Research Centre and even the port where rails begin their journeys to their final destinations will also feature.

InnoTrans is the leading international trade fair for transport technology and takes places every two years in Berlin. It runs 20-23 September 2016.

Not going to InnoTrans? You can take the tour here: <http://rails.arcelormittal.com/Virtualtour>

### **About ArcelorMittal**

#### **Europe**

*ArcelorMittal employs more than 80,000 people and produces approximately half of its total steel volume in Europe. With a presence in 17 European countries and around 400 different sites, ArcelorMittal Europe had revenues of €29 billion and a crude steel production of 44 million tonnes in 2015. We supply flat and long steel products for all major steel markets, including the automotive, construction, packaging and household appliances industry – supported by a leading R&D and distribution network with 9 laboratories and 1,000 full-time researchers in Europe.*

For more information about ArcelorMittal Europe please visit: <http://europe.arcelormittal.com>

#### **Worldwide**

*ArcelorMittal is the world's leading steel and mining company, with a presence in 60 countries and an industrial footprint in 19 countries. Guided by a philosophy to produce safe, sustainable steel, we are the leading supplier of quality steel in the major global steel markets including automotive, construction, household appliances and packaging, with world-class research and development and outstanding distribution networks.*

*Through our core values of sustainability, quality and leadership, we operate responsibly with respect to the health, safety and wellbeing of our employees, contractors and the communities in which we operate.*

*For us, steel is the fabric of life, as it is at the heart of the modern world from railways to cars and washing machines. We are actively researching and producing steel-based technologies and solutions that make many of the products and components people use in their everyday lives more energy efficient.*

*We are one of the world's five largest producers of iron ore and metallurgical coal and our mining business is an essential part of our growth strategy. With a geographically diversified portfolio of iron ore and coal assets, we are strategically positioned to serve our network of steel plants and the external global market. While our steel operations are important customers, our supply to the external market is increasing as we grow.*

*In 2015, ArcelorMittal had revenues of US\$63.6 billion and crude steel production of 92.5 million tonnes, while own iron ore production reached 62.8 million tonnes.*

*ArcelorMittal is listed on the stock exchanges of New York (MT), Amsterdam (MT), Paris (MT), Luxembourg (MT) and on the Spanish stock exchanges of Barcelona, Bilbao, Madrid and Valencia (MTS).*
