

What they say about us

"ArcelorMittal also expresses a willingness to explore new steels and solutions which meet Samsung's needs. That is why it won the 2020 Innovation Alliance award."

Tomasz Świdorski - Development purchasing manager for Samsung Electronics Poland Manufacturing

"We are very excited and committed to this cooperation, helping ArcelorMittal on their mission towards a CO₂-neutral future in steel production. We see this as the beginning of a prosperous long-term collaboration."

Henrik Badin - CEO of Vow ASA

"XCarb™ Recycled and renewably produced initiative is a great way forward for the environment. Combining 100% recycled steel with 100% renewable electricity for the production of new steel products is clearly in line with the Cradle to Cradle-inspired goals for making a more sustainable world. It promotes recycling and the use of renewable electricity and furthermore will support long-term investments in this critical area of steel manufacturing."

William McDonough - Founder, William McDonough + Partners

"We want to create the packaging of tomorrow with the lowest possible environmental impact. ArcelorMittal is a key partner if we are to achieve this goal as they are the leader in terms of innovation and know-how."

Vincent Miginiac - Consumer offer director for Cofigeo

“Ateliers 3S is proud to be the first customer to benefit from ArcelorMittal’s XCarb™ green steel certificates. The XCarb™ green steel certificate allows us to report a reduction in our Scope 3 CO₂ emissions, something that has never been seen before in our sector. They represent an important step forward on Ateliers 3S’ road to carbon neutrality.”

Julien Faisandier - CEO of Ateliers 3S and Jean Christophe Vigouroux - owner of Ateliers 3S

“We conducted over 200 Ultrasonic Tests (UT) after welding on the rolled shapes in steel on HISTAR®460. They all passed successfully.”

ALEC Contractors

“We had tested Magnelis® at the Institute of Precision Mechanics in Warsaw (Poland), but a meeting with ArcelorMittal confirmed the outstanding corrosion resistance of Magnelis®. We knew it would be a game changer.”

Piotr Żbikowski - President of the Energy5 Management Board

“For many years, we have enjoyed a close collaboration with ArcelorMittal in Europe. Within our partnership, the joint efforts on continuous improvement and supply chain integration have helped us to serve better our customers.”

Patrick Van Hecke - VP Procurement Europe at Bekaert
